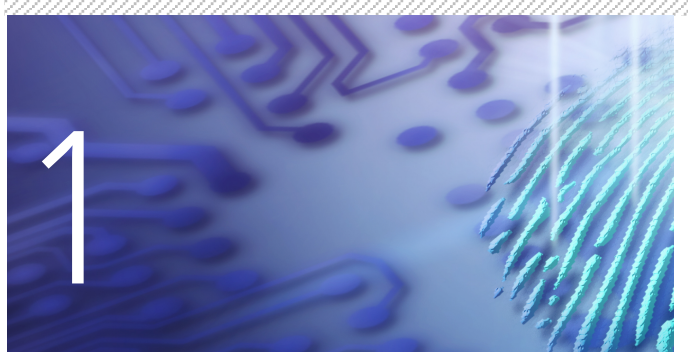
EC Call objectives



Mapping of **existing methods** of

- **age-verification** and
- **parental consent**

Implementation of **interoperable infrastructure**

- Perform reliable **age-verification** checks
- Perform reliable **consent** mechanisms
- Support **cross-border** verification
- Ensure children's **interests** and **well-being**

euCONSENT proposal

1. Relying on eIDAS **experience** and **infrastructure**
2. Extensive **consultation** of users (parents and children)
3. Ensure interoperability with existing eIDAS **nodes**
4. Allow **free competition** of AV and PC providers
5. Enforce same **rules** and **processes**

Expected results

1. **Raise** public and policy-makers' **awareness**
2. Prepare for future **rule-making initiatives**
3. **Open Source** sample nodes implementation
4. At least 3 **commercial prototypes**
5. **Extended testing** with more than 2.000 users
6. Complete **certification specifications** to be submitted to international bodies
7. **Certification requirements** for compliant AV and PC providers
